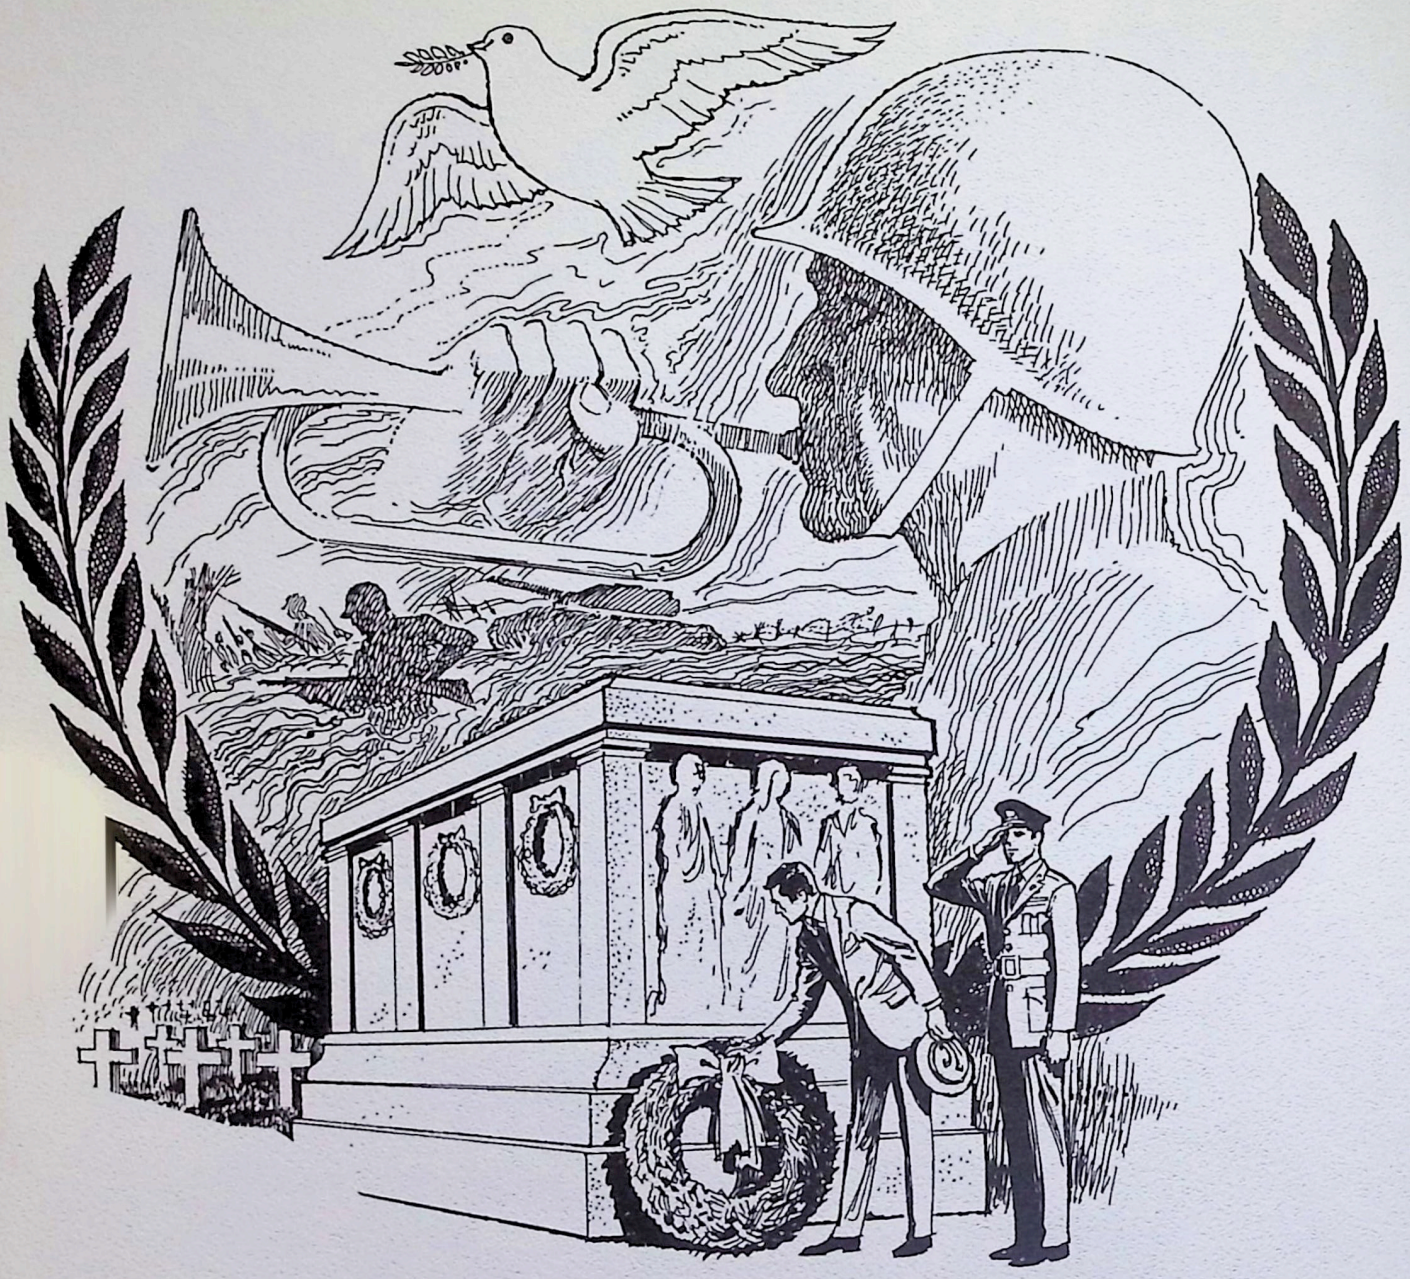
PATRIOTISM



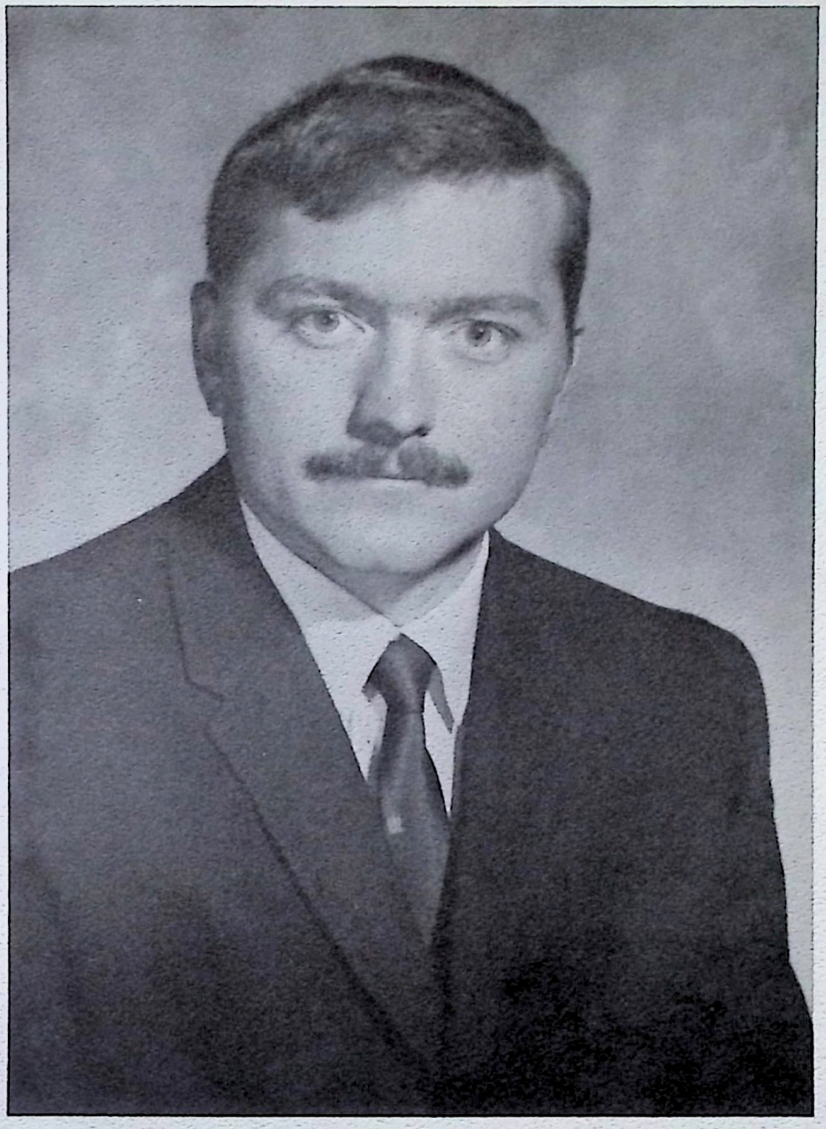
TRANSLATION

From Finlandia
By Sibelius

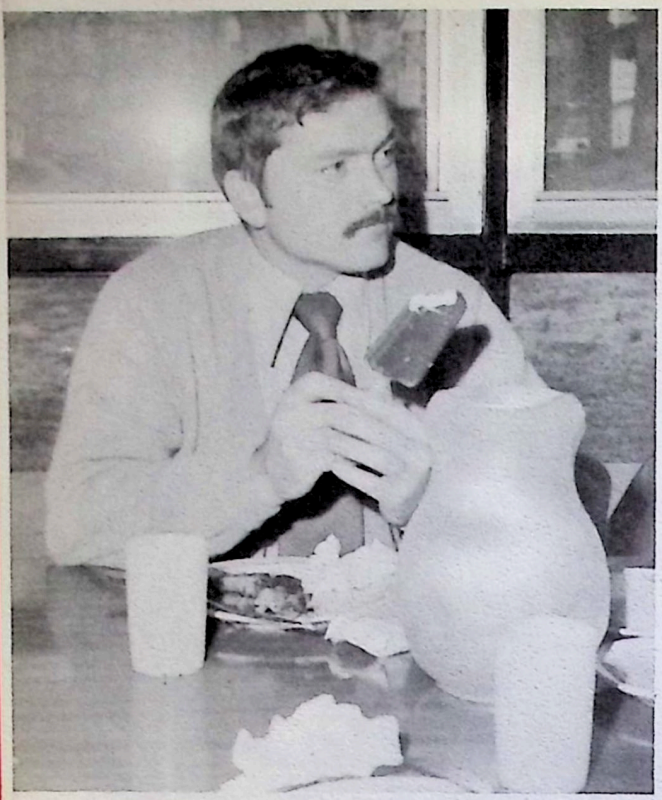
This is my song, Thou God of all the nations,
A song of peace for lands afar and mine.
This is my home, the country where my heart is;
This is my hope, my dream, my shrine.
Oh, hear my song, Thou God of all the nations,
A song of peace for their lands and mine.

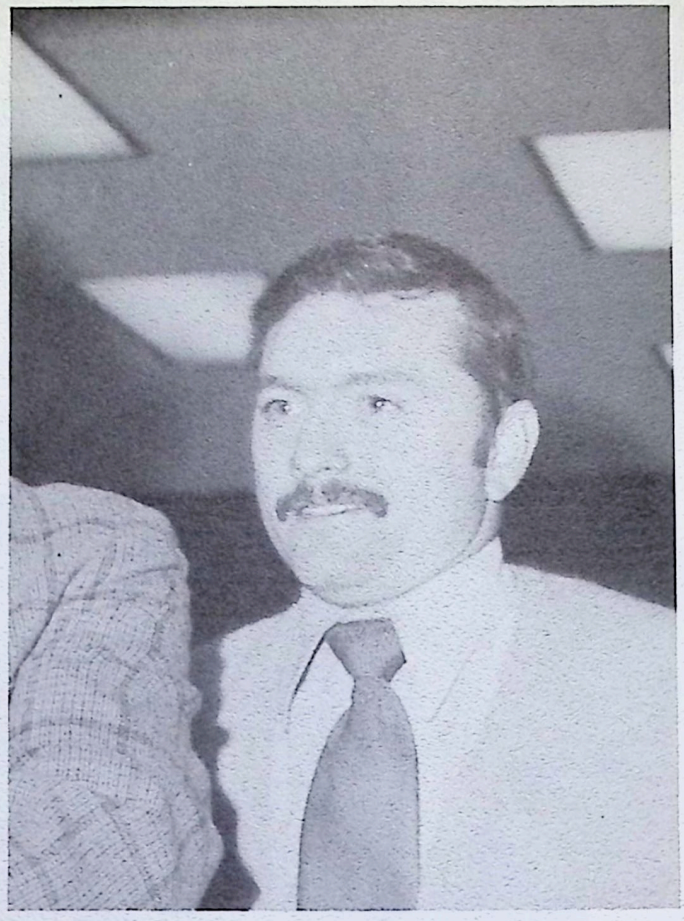
My country's skies are bluer than the ocean,
And sunlight shines on clover leaf and pine;
But other lands have sunshine, too, and clover;
And skies are sometimes blue as mine.
Oh, hear my prayer, Thou God of all the nations
A prayer of peace for their lands and mine.

DEDICATION



Mr. Harold C. Deuel





To Mr. Harold Deuel

We, the Class of 1971, are very proud to honor one of our outstanding teachers who has given much of his life, time, and energy to working toward the education of the deaf. He has been a classroom teacher, preparing most of his students for Gallaudet College. He also teaches us about life in general. He is very much involved in the athletic program of our school where he established the wrestling team in 1966. It is with great pleasure that we dedicate the 1971 edition of *The Clock Tower* to Mr. Harold Deuel.

Mr. Deuel went to the Missouri School for the Deaf prior to going to Gallaudet College where he received his B.A. degree in 1963. He met and married Miss Pat Ewing. They now have two children, Daisy and Wendy.

Mr. Deuel taught at the South Carolina School for the Deaf before he came here. In his first year here, he taught general shop. Then he taught and is still teaching mathematical courses. He is President of the N.C.S.D. Unit of the North Carolina Association of Educators. He is assistant coach of the football team and head coach for the wrestling team.

With great affection and pride, we give this special annual to you, Mr. Deuel.

THANKS TO ADVISORS

We have been very fortunate in having had these marvelous people as our sponsors. They gave much of their free time during our junior year to work with us selling things, and getting things ready for the Junior-Senior Prom. They made our trips to Florida and Georgia most enjoyable. These occasions will remain in our memories for a long time. We would like to thank these fine people for all they did for us.

We would also like to show our gratitude to Mrs. Anne B. Starrett, Mrs. Marilyn Williams, Mr. Harold Brown, Mr. Arthur McKinney, and Mr. Albert Mehl for their work on the annual.

CLASS PROPHECY

By John Williamson

In the year 1995, I returned to my alma mater for the Homecoming celebration of the 100th Anniversary.

After I was graduated from N.C.S.D., the National Aeronautics and Space Administration was asking for volunteers to work at the new colony which was in the process of being built on the moon. I was interviewed, accepted, and sent to Houston, Texas, to be trained for service on U.S. Lunar Colony I as a teletype operator. Two years later I was sent to the moon; therefore I had seen none of my old classmates since June of 1971.

I hoped that all of my former friends would be at the celebration. I was eager to learn where they were all living and what they were all doing.

When I arrived in Morganton, I was amazed at how the place had grown and I wondered if I would find a lot of changes at N.C.S.D. I asked a policeman if the school had facilities for parking miniplanes and he replied, "Are you kidding? Of course it has! That place is really up-to-date!"

I flew out and, sure enough, there was a huge parking area simply covered with planes of all kinds. I thought to myself that it was a good thing that all planes could now land and take off vertically. I landed in a vacant spot and got out of my miniplane. To my surprise I saw four familiar people get out of a midiplane parked next to me. They turned out to be Christine Sherrill, Horace Jones, Corrine Brown, and Loretta Moore.

When asked where I'd been and what I'd been doing, I told them about my work and about the challenges and the problems which confront lunar pioneers. Horace replied that his work wasn't very exciting, but that his privately-owned printing establishment had earned for him a modest fortune; consequently he was able to pay Christine, Corrine, and Loretta very good salaries. They were all quite happy with their occupations.

We had been walking in the direction of Main Building and we decided all of a sudden that we were very hungry. We began to look around to see if we could spot the Parents' Association tent. We remembered the delicious food they had always served, and we also thought we'd probably see a lot of our old classmates there. We were nearing the outer edge of the enormous parking lot when we saw a large building which was new to us. A flashing neon sign told us that this was the Parents' Association Building. This immense structure was certainly a radical change from the green tent of old!

When we went in, we saw hundreds of people, most of them familiar. There were waves, handshakes, hugs, and all kinds of greetings. This is an exceedingly spacious center. In addition to a very large dining room, capable of seating a thousand, we saw the kitchen with all the most modern appliances, and the booths where many interesting souvenirs were for sale.

As I had hoped, all the members of the Class of '71 were present. We all gathered together and sat at adjoining tables so that we could exchange information about one another.

I shan't go into detail about all of the thrilling events and interesting conversations of that memorable day, but I shall list all of the pertinent facts concerning each of the members of the Class of 1971.

Quite a few of my classmates are involved in work aimed at helping their fellowman. Joyce Boyd and Alfred Deuel, brother of Mr. Harold Deuel who was one of Joyce's former teachers, are married and are stationed on the ship **Hope;** Shirley Starling married a minister and these two are doing a fine job of rehabilitating delinquent teenagers in New York City; Pat Gaither married a Gallaudet College classmate and they have recently established a community college for the deaf outside of Greensboro; Buster Bowman is in charge of a health farm devoted to helping drug addicts; and Mary Lane now interprets N.C.S.D. - T.V. stories and cartoon shows for the Rankin and Joiner Hall students.

There are quite a few "firsts" in the Class of 1971. Billy Cobb was the first deaf boxer ever to win the world's heavyweight title, Tonda Gilmore was the first deaf Miss America, Larry Merritt is the first deaf manager of a pro football team, the Dallas Cowboys, (All of the players are now required to learn the language of signs.); and Bruce Harlan became the first deaf jet airplane pilot.

Among the members of the Class of '71 who are in business for themselves are Roger Jones, who is managing editor and owner of a newspaper in Marion, N.C.; Steve Power, who is a famous architect; David Bouthot, who owns and operates a large upholstering business; Buddy Goen, who is a highly successful photographer; Joe Snyder, who has made a fortune through a chain of dry cleaning establishments; Steve Lancaster, who is the owner and publisher of a magazine entitled **The Numismatical Journal;** Ella Mae Foust, who is the owner of a well-known beauty shop in Chicago; Vicki Dover who, with her husband, has a roadside restaurant catering to truck drivers; and Helen Purcell, who has a large pet shop in Atlanta.

Helen Greene has lost 50 pounds since I last saw her, and is a hostess in a night spot in Las Vegas.

Jim Collins has a position as supervisor in a large electronics plant. He and Eva Mae Bruce are very happily married and have two children.

Gary Duncan is the foreman of the welding department of a Naval shipyard in California.

Betty Hughes is a celebrated motorcycle racer who has participated in races all over the world.

David Jones has been supervisor for the Department of Sanitation in Raleigh for a number of years now.

Remember when all David Frye could think about or talk about was roaches? He is now a biologist, renowned for his collection of rare insects.

Remember, too, when the walls of Wayne Snow's room at Hoffmeyer Hall were covered with pictures of Liz Taylor? Wayne married one of Liz's daughters, and does she lead him around by the nose.

Flying to Cape Kennedy to be ready to blast off to the moon, I began to reminisce about my school days and my classmates. It wasn't really too surprising that they'd all turned out as well as they had. There was not a single rotten apple in the Class of 1971 barrel!
